

NeuraLabel 300x

NeuraLabel 300x

Variable Width Digital Color Labeling Solution

Built on advanced HP PageWide technology, similar to that found in high-end digital presses, together with water resistant pigment inks, the NeuraLabel 300x gives you a versatile and affordable option for fast turn-around, on-demand, short-run labels. Printing at speeds up to 100 feet per minute with print resolution up to 2400 x 1200 dpi on a variety of substrates, your finished labels will stand out in the crowd.

Engineered Quality and Performance

- Prints labels in any width from 1.5 to 8.5 inches on roll-fed, fan-fold and sheeted label media for maximum flexibility and performance.
- Label media partners offer an impressive array of available substrates optimized for printing with durable, NeuraLabel pigment ink.
- Water-resistant pigment inks ensure that your labels will meet BS5609 standards for adhesion, resistance to abrasion, saltwater immersion, and UV exposure.
- Seamless integration with standard label creation and graphical software packages.

The Label Printing Solution That Makes Sense

- Compact form factor makes local desktop operation possible.
- Variable width media handling makes the NeuraLabel 300x ideal for labeling everything from small bottles and cartons to large containers.
- High capacity ink cartridges decrease operational downtime and increases production turnaround.
- Fast and reliable desktop digital full-color label printing solution.
- Low cost of ownership and easy, trouble-free operation make the NeuraLabel 300x an ideal solution for small and medium-size businesses.

NeuraLabel 300x

NeuraLabel 300x Benefits

- Eliminate pre-printed inventories of labels with on-demand printing.
- Integrates with your label authoring software.
- Easy media loading and operation.
- Fastest turnaround from design to print.

Labeling Software

The NeuraLabel 300x works with all industry standard labeling software, including BarTender, Adobe, Corel Draw, and many more. These applications have been tested by our team to ensure that they work well with the NeuraLabel 300x.

Continuous Form Label Media

The NeuraLabel 300x prints on a wide variety of inkjet compatible, pressure-sensitive label media; fan-folded, roll-to-roll and sheet-fed.

Support: Warranty and Service

NeuraLabel 300x includes global support and available on-site warranties to ensure you have the best possible solution. Support includes technical advice from our experienced team, as well as driver and firmware updates. Corporate incident tracking is available through our On-line Support Portal.

Specifications

Color and B&W Printing	Up to 20 inches per second (over 100 pages per minute)
Print Resolution	Up to 2400 dpi
Print Technology	Stationary thermal inkjet technology
Ink Cartridges	NeuraLabel pigment inks
Cartridge Yields	B - 9,200 standard pages, CMY - 6,600 standard pages
Media Type	Inkjet-coated paper & synthetic films (BOPP, Vinyl, PET)
Print Widths	1.5" - 8.5" wide
Print Engine	38 pounds - 20.3"W x 15.7"H x 15" D (517 x 399 x 380 mm)
Processor/Memory	792 Mhz - 512MB on-board memory
Interface	Network Ethernet and USB
Power Supply	Built-in Universal, 110V or 220V
System Requirements	Windows Vista, 7, 8 or 10 • OS X • Linux
Warranty	1 year - includes telephone, online and available on-site support
