

NeuraLabel 500e

NeuraLabel 500e

Fully Automated Continuous Color GHS Label Printer

Learn More

The **NeuraLabel 500e** is a high-speed, 4-color continuous printer for large volume GHS-compliant label printing. Developed using the most advanced laser printing, media and software technologies available, the NeuraLabel 500e solution will streamline your complete labeling process. Print directly from any Windows application or label authoring system with one-pass 4-color technology. Go from blank media to finished color labels at 50 pages per minute, while you customize labels on-demand and eliminate inventories of pre-printed media. This custom GHS

printer is the ideal choice for both fan-fold and roll-to-roll label printing.

Engineered Quality and Compliancy

- Combines the industry's most advanced color laser technology with select media from trusted partners to meet the required standards for GHS compliance. *
- Incorporates 20 years of engineering expertise in scanning and printing continuous documents.
- Colors are consistently and dependably brilliant, sharp and permanent.
- PANTONE® color calibration ensures consistent optimized color tone and color matching.
- Meets BS5609 requirements for resistance to abrasion, saltwater immersion, and UV exposure.

Complete Printing Solution

- Complete fan-fold and roll-to-roll labeling solutions including label media and software expertise and support.
- Labeling software partners offer a variety of applications that have been tested for use with NeuraLabel 500e printers.
- Media partners offer many GHS and BS5609 compliant labels with custom labels available.
- Custom drivers and firmware deliver labels with maximum page coverage and the fastest print speeds.
- Printer interface elements such as color touchscreen and interactive web page make the printer and the printing process user friendly.

Green Machine

- Eco-friendly features allow you to save energy and reduce toner consumption.
- Energy star printer with Sleep and Hibernate modes allow for minimal energy draw.
- Extra-high-yield consumables minimize maintenance while ensuring high-quality prints.
- Toner cartridge Return program includes pre-paid shipping labels, making recycling easy.

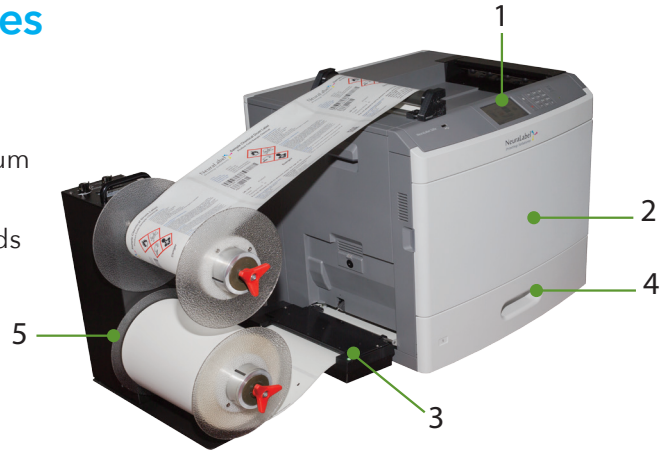

**NeuraLabel works with media partners to provide required GHS compliant heat-resistant label media.*

NeuraLabel
Printing Solutions

NeuraLabel 500e

NeuraLabel 500e Features

1. Touch screen operator panel
2. All-in-one extra high yield toner/drum cartridges with recycle program
3. Continuous Form Attachment - feeds and cuts continuous label media
4. Standard 550 sheet tray
5. Optional roll-to-roll system

NeuraLabel 500e Benefits

- Unsurpassed speed and performance make NeuraLabel 500e ideal for longer runs of 50+ labels.
- Eliminates pre-printed inventory through full-color, on-demand, one-pass printing.
- Integrates with your label authoring software to facilitate GHS compliance.
- Easiest media loading of any label printing solution.
- Fastest turnaround from design to print.

Labeling Software

NeuraLabel supports industry labeling software, including BarTender, SAP, IHS/LPI and others. These applications have been tested by our team and have proven to work well with NeuraLabel 500e.

Continuous Form Label Media

NeuraLabel works with a variety of label vendors to produce GHS-compliant solutions. We support both standard and custom stock with NeuraLabel 500e.

Support: Warranty and Service

NeuraLabel 500e is the only printer that includes support and first year on-site warranty in over 70 countries to ensure you have the best possible solution. Support includes technical advice from our experienced support team, as well as driver and firmware updates. Corporate incident tracking is available through our On-line Support Portal.

Specifications

| | |
|----------------------------------|---|
| Color and B&W Printing | Up to 11 ips |
| Print Resolution | Up to 2400 dpi |
| Cartridges | 20,000 standard pages |
| Fuser | 150,000 standard pages |
| Transfer Unit | 200,000 standard pages |
| Media Size | Letter, Legal, A4, etc. - up to 48" in length |
| Print Engine | 110 pounds - 20.3"W x 22.3"H x 20.2" D |
| Continuous Form Attachment (CFA) | 4 pounds - 12"W x 2"H x 5"D |
| Processor/Memory | 1.2 GHz - 1.5 GB on board RAM |
| Interface | Network Ethernet and USB |
| Electrical | 110V or 220V - Specify on order |
