## NeuraLabel 600e

Commercial Desktop LED Printer

Learn More

The **NeuraLabel 600e** offers the results of a commercial label printer in the size of a desktop printer to give you the ultimate in-house, continuous digital press solution for short-run label production. Printing at speeds up to 30 feet per minute, short-run label production on die-cut, kiss-cut, or rolled media has never been so easy. This innovative label press is easy to operate, allowing you to print on-demand instead of ordering large quantities of pre-printed labels. Print 2,000 stunning, full-color labels in less than 20 minutes, and change your design at any time—all in the space of a traditional desktop printer.

### Overview of the NeuraLabel 600e

- HD Color Printing technology provides sharp detail and rich, dramatic colors (including K, W, and specialty toners), while giving you control over your printing costs.
- Single Pass Color™ Digital technology prints on media up to 140 lb. (220 gsm).
- 2-piece consumable cartridges offer low cost of ownership.
- Prints first page in as little as 8 seconds for 1 color and 9 seconds for full color.
- Combines the industry's most advanced multilevel LED printhead and unique microfine toner technology for exceptional speed and image clarity

### Uniquely Engineered for Label Printing

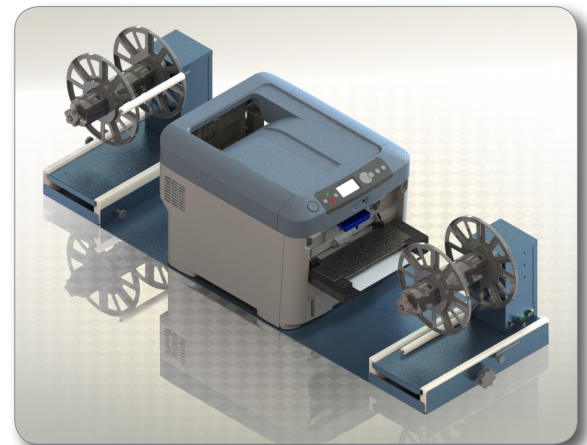

- 25+ years of engineering expertise in scanning and printing continuous documents.
- Patented Continuous Feeder Attachment (CFA) allows for accurate, aligned, fast continuous printing.
- Precise placement of label image and straight path ensure minimal waste.
- Custom drivers and firmware deliver labels with maximum page coverage and intuitive saved settings.
- Complete labeling solutions includes in-house label media testing, software expertise, and unparalleled technical support.
- Labeling software partners offer a variety of applications that have been tested with NeuraLabel 600e printers.

### BS5609-Compliant Printing Solution

- Meets BS5609 requirements for resistance to abrasion, saltwater immersion, and UV exposure when used with NeuraLabel-approved media.

### Green Machine

- Eco-friendly features allow you to save energy and reduce toner consumption.
- High-yield consumables and long-life drum minimize maintenance while ensuring high-quality prints.
- Detachable toner cartridge makes recycling easy.
