Colamark

FX101 Wrap Belt Labeling System:

The FX101 is a compact, general purpose integrated vertical wrap labeling system. The system is designed for preprinted, pressure sensitive label application to round product. Designed so the wrap belt runs 1.65 time faster than the conveyor speed eliminates the need for product metering in many applications.

- **Ideal for off-line, handle loaded product labeling or lower speed inline applications.**
- **Small footprint for tight production environments**
- **Easy to operate touch screen HMI.**
- **Easy to maintain.**
- **Modular construction**

Standard Features

- **LS100 200mm (4") Labeling Engine**
- **300mm (12") OD Roll Capacity**
- **75mm (3") ID Core**
- **104mm (4.125") Media Width**
- **Casters**
- **Stepper Drive, 30M/minute**
- **87mm x 1 M Conveyor Belt**
- **100mm Wide Wrap Belt and Backing Plate**
- **Touch Screen HMI**
- **50 Memory Presets**
- **Anodized Aluminum Construction**
- **110 Vac/20A power**
